Subject Index, 2002

A

adenocarcinoma
in peach-fronted conure, 1062
adenovirus, serotype 1 group I
gizzard erosions, 893
African grey parrots
infection with reovirus and herpesvirus or fungal infections, 478
airsacculitis
bacterial etiology, 605
in Jordan, 605
Amazona amazona aestiva
Mycobacterium tuberculosis infection, 502
ammonia
as a disinfectant against *Pseudomonas*, 826
Anas discors
avian pneumovirus, 1025
Anas platyrhinchos domesticus
thoracic teratoma, 493
antibiotic sensitivity
pathotypes of *Escherichia coli*, 143
antibiotic susceptibility
of *Mycoplasma synoviae* in Argentina, 215
antibiotics
effect on cartilage degradation, 75
antibodies
against gram-negative core antigens in chickens, 453
antibody response
and interferon-γ genotype and protein levels, 869
genetic selection for high or low, 1007
to *E. coli* cell surface antigens, 668
to *M. gallisepticum* ts-11 vaccination, 623
to *Salmonella enteriditis*, 25
anticoccidial vaccines
history, 775
antigenic characteristics
of CIAV-7, 956
antigenic cross-reactivity
among subgroups of avian pneumoviruses, 725
antigenic diversity
of infectious bronchitis viruses from 1940s, 437
Argentina
antibiotic susceptibility of *Mycoplasma synoviae*, 215
ARS-CU98
found in poult enteritis and mortality syndrome, 32
ascaridiasis
symptoms and treatment in turkeys, 886
ascites
induced by cold in broilers, 989
aspergillosis
in a great rhea, 754
in broiler breeder flock, 497
Aspergillus fumigatus
infection in broiler breeder flocks, 497
Aspergillus niger
infection in broiler breeder flocks, 497
avian cholera
polymerase chain reaction for identification, 370
avian influenza virus
detection of variants using heteroduplex mobility assays, 393
detection using multiplex polymerase chain reaction, 691
H5N1 and H5N3 strains, 877
H5N1 type in various birds, 53
pathogenicity, 53
screening for highly pathogenic forms, 393
subtypes in live bird markets, 298
susceptibility in laughing gulls, 877
avian leukosis virus, subgroup J
detection in feather pulp, 971
effect on fertility and sperm quality, 1033
in feather pulp of chickens, 281
interaction with fowl adenovirus, 979
myeloid leukosis in layers, 745
serology, 598
avian pathogenic *Escherichia coli*
virulence factors in southern Brazil, 749
avian pneumovirus
causes reduced efficacy of hemorrhagic enteritis virus vaccine, 353
concurrent with Newcastle disease and *Escherichia coli*, 412
cross-reactivity among subgroups, 725
effect of immunomodulator on vaccine efficacy, 55
in Canada geese and blue-winged teal, 1025
in turkeys, 153
methods for detecting antibodies, 700
neonatal infection in turkeys, 239
pathogenicity in turkey poults, 650
tissue distribution, 650
transmission in turkey poults, 650
avian poxvirus
in ostriches, 429
avian respiratory pathogens
detection using multiplex polymerase chain reaction, 691

B

bacteria
unidentified, nonfermentative, gram-negative in chickens and turkeys, 447
baculovirus
turkey coronavirus, 334
Bifidobacterium thermophilium
used to increase resistance, 542
biosecurity
practices among commercial growers, 730
biotin
deficiency as cause of pododermatitis, 1038

blue-fronted Amazon parrot
Mycobacterium tuberculosis infection, 502
blue-winged teal
avian pneumovirus, 1025
bobwhite quail
Haemoproteus lophortyx outbreak, 249
Bordetella avium
bacterial etiology of airsacculitis, 605
Branta canadensis
avian pneumovirus, 1025
Brazil
virulence factors in *E. coli*, 749
breeder hens
transmission of *Campylobacter* to broilers, 535
vaccination to prevent disease in progeny, 547
broiler breeders
aspergillosis, 497
Campylobacter in reproductive tract, 919
effect of avian leukosis virus subgroup J on fertility, 1033
genetic resistance, 581
presence of *Campylobacter* in semen, 717
response to *M. gallisepticum* ts-11 vaccination, 623
broiler houses
carry-over of *Campylobacter* infections, 378
broilers
Campylobacter from breeder hens, 535
cold-induced ascites, 989
competitive exclusion cultures for *E. coli*, 198
effect of moniliformin in feed, 901
field trial of multivalent *in ovo* vaccine, 613
gizzard erosions caused by adenovirus, 893
hypoglycemia spiking mortality syndrome, 735
immune response and detection to IBDV, 803
immunosuppression following vaccination, 810
malabsorption syndrome, 87
mortality from *Pseudomonas aeruginosa*, 1045
myxoid leiomyosarcoma in gizzard, 256
pathotypes of *Escherichia coli*, 143
rearing temperature, 989
response to salmonella vaccine, 25
rickets, 735
use of *Escherichia coli cya crp* in vaccines, 287
variant strain of infectious bursal disease virus, 169

C

Campylobacter
carry-over between sequential flocks, 378
in reproductive tract of chickens, 919
new method of transmission, 535
Campylobacter coli
infection of chicks by porcine strains, 473
Campylobacter jejuni
in crops of newly hatched chicks, 985
colonization in crop by wild and mutant strains, 985
Campylobacter spp.
detection in hatcheries, 219
effect of drinking water chlorination, 401
in semen of chickens, 717
Canada goose
avian pneumovirus, 1025
canary
Mycobacterium tuberculosis infection, 502
carcinoma
ingluvial squamous cell, 1070
use of antibiotics, 75
cell-mediated immunity
colorimetric assay, 10
to coccidiosis in chickens, 2
cellulitis
bacteriologic studies in turkeys, 192
histopathologic studies in turkeys, 192
virulence of *E. coli*, 48
chicken anemia virus vaccination
to prevent IBHH/HP, 547
chickens
as carriers of pathogenic *E. coli*, 721
Campylobacter infections in sequential flocks, 378
colonization of crops by *Campylobacter*, 985
detection of antibodies to gram-negative core antigens, 453
effect of vitamin E on coccidiosis, 839
infected with porcine strains of *Campylobacter coli*, 473
infectious bursal disease virus serotype 2 OH, 1001
interaction of *E. coli* and NDV, 660
new serotype of infectious anemia virus, 945, 956
Ornithobacterium rhinotracheale serotypes in Turkey, 442
ovotransferrin levels in inflammation, 122
protection against nephropathogenic infectious bronchitis, 938
serology of subgroup J avian leukosis virus, 598
transmission of *Campylobacter*, 535
unidentified gram-negative bacterium causes respiratory disease, 447
use of prophylactic lymphokines, 525
velogenic Newcastle disease virus, 525
virulence of *Salmonella gallinarum* INTA 91, 186
cholangiocarcinoma
in peach-fronted conure, 1062
coccidiosis
differential immunity in chickens, 2
effect of vitamin E, 839
test for cell-mediated immunity, 10
vaccine development, 775
colibacillosis
iss and virulence of *Escherichia coli*, 342
Colinius virginius
Haemoproteus lophortyx outbreak, 249
colisepticemia
virulence of *E. coli*, 48
Columba livia domestica
influence of stress on blood parameters, 224

commercial growers
biosecurity practices, 730
common eiders
isolation and characterization of reovirus, 478
common retinaculum
avulsion in meat turkeys, 245
competitive exclusion
effect in reducing antibiotic-resistant *E. coli*, 198
competitive exclusion products
virulence of *E. coli* in, 704
complement resistance
and virulence in *Escherichia coli*, 386
determination using viable count and flow cytometry, 386
coronavirus
antigenic relationships in turkeys, 466
chlorination
detection of antibodies in turkeys, 334
diversity of infectious bronchitis viruses from 1940s, 437
use in drinking water to prevent spread of *Campylobacter*, 401
coryneform bacteria
cause of polyarthritis, 1051
crop
Campylobacter in newly hatched chicks, 985
Salmonella enteritidis infection, 1015
Cryptosporidium baileyi
oocyst shedding in broilers, 203
Cryptosporidium meleagridis
oocyst shedding in broilers, 203

D

Delmarva Penninsula
biosecurity practice among growers, 730
developmental abnormalities
in broiler chicken, 234
disinfectants
bacterial resistance, 997
DNA sequence
for surface antigen of *Mycoplasma gallisepticum*, 816
in pathotypes of *Escherichia coli*, 143
drinking water
effect of chlorination on spread of *Campylobacter*, 401
duck enteritis virus
reactivation of, 308
latency sites in waterfowl, 308
ducks
reactivation of duck enteritis virus, 308
latency sites of duck enteritis virus, 308

E

egg production and quality
effect of *Mycoplasma gallisepticum* 6/85 vaccine, 423
effect of *Mycoplasma gallisepticum* S6, 593
eggs
contamination with *Salmonella enteritidis*, 629
in ovo transmission of Newcastle disease, 461
methods for injecting formaldehyde, 964
Eimeria maxima
effect of vitamin E on infected chickens, 839
Eimeria tenella
differential immunity in chickens, 2
test for cell-mediated immunity, 10
enterotoxin genes
in *Staphylococcus aureus* isolates, 132
environment
occurrence of *Salmonella*, 17
enzyme immunoassay
ovotransferrin levels in chickens, 122
enzyme-linked immunosorbent assays
detection of avian pneumovirus, 700
detection of ILTV glycoproteins, 570
detection of *Mycoplasma gallisepticum* ts-11 antigen, 405
for identification of *Ornithobacterium rhinotracheale* serotypes, 442
for monitoring *Salmonella*, 265
for turkey coronavirus, 334
epidemiology
Mycobacterium avium outbreak, 1055
Erysipelothrix rhusiopathiae
diagnosis in pheasants by polymerase chain reaction, 509
Escherichia coli
antibody response to cell surface antigens, 668
bacterial etiology of airsacculitis, 605
chickens as carriers, 721
complement resistance, *iss* gene, and virulence, 386
control of antibiotic-resistant bacteria in broilers, 198
expression of viral glycoproteins, 570
in cellulitis, 48
in colisepticemia lesions, 48
in malabsorption syndrome, 87
in naturally occurring poult enteritis–mortality syndrome, 360
increasing lymphocyte proliferation, 542
interaction with avian pneumovirus in turkeys, 412
interaction with Newcastle disease, 660
location of *iss* gene, 342
location of virulence traits on conjugative R plasmid, 342
strains in turkeys, 562
temperature-sensitive hemagglutinin, 713
use of *Bifidobacterium* to increase resistance, 542
virulence factors, 48
virulence factors in southern Brazil, 749
virulence in competitive exclusion products, 704
Escherichia coli cya crp mutants
use in vaccines, 287

Escherichia coli J5
use in enzyme-linked immunosorbent assay, 453
Escherichia coli pathotypes
Tsh, Pap Pil and Ius in broilers, 143
ethylenediaminetetraacetic acid-Tris
as a disinfectant against *Pseudomonas,* 826

F

fatty acid profile
unidentified coryneform bacteria, 1051
feather pulp
high titer of subgroup J avian leukosis virus, 281
feathers
detection of avian leukosis virus, 971
fenbendazole
effectiveness in treatment of turkey ascaridiasis, 886
fertility
effect of avian leukosis virus subgroup J, 1033
Finland
isolation and characterization of reovirus in common eiders, 478
food poisoning
from staphylococcal enterotoxins, 132
formaldehyde
methods for administering in hatcheries, 964
fowl adenovirus
interaction with avian leukosis virus subgroup J, 979
fowl adenovirus serotype 4
association with infectious hydropericardium, 230
fowl adenovirus vaccination
to prevent IBHH/HP, 547
fowl pox
field trial of multivalent *in ovo* vaccine, 613
fowl poxvirus
Israeli vaccine strains, 95
recombinant containing S1 gene, 831
fowl typhoid
virulence of INTA 91 strain in chickens, 186
Fusarium fujikuroi
effects of food contamination, 901

G

genetic marker
*Ngo*M marker for infectious bursal disease, 1030
genetic selection
high or low antibody response, 1007
gizzard
erosions caused by adenovirus, 893
myxoid leiomyosarcoma in broiler, 256
glycoprotein B gene and antigen
comparison in Marek's disease in chickens and turkeys, 322
glycoproteins
from infectious laryngotracheitis virus, 570
gram-negative core antigens
seroprevalence of antibodies in chickens, 453
great rhea
aspergillosis, 754

H

Haemoproteus lophortyx
in bobwhite quail, 249
hatcheries
detection of *Campylobacter* spp., 219
methods for administering formaldehyde, 964
mortality from *Pseudomonas aeruginosa,* 1045
resistance of bacteria to disinfectants, 997
use of disinfectants against *Pseudomonas,* 826
hemorrhagic enteritis virus vaccine
reduced efficacy in turkeys exposed to avian pneumovirus, 353
herpesvirus
dual infection with reovirus in parrots, 478
in vaccines for Marek's disease, 274
heteroduplex mobility assays
use in detecting avian influenza viruses, 393
hypoglycemia
and spiking mortality syndrome, 735

I

immune response
to *E. coli* cell surface antigens, 668
to infectious bursal disease virus, 803
to recombinant fowl poxvirus, 831
immunity
for Marek's disease with partially attenuated serotype 1, 925
mucosal humeral response to *Salmonella,* 1015
immunoglobulin A
secretory, 1015
immunomodulator
effect on avian pneumovirus vaccine, 555
immunosuppression
by avian pneumovirus in turkeys, 153
following infectious bursal disease virus vaccines, 810
in ovo-injection
of formaldehyde into eggs, 964
in ovo inoculation
with infectious bronchitis virus, 679
in ovo transmission
of Newcastle disease, 461
inclusion body hepatitis
interaction with avian leukosis virus subgroup J, 979
inclusion body hepatitis/hydropericardium
prevention by vaccination, 547
India
association of fowl adenovirus and infectious hydropericardium, 230
infectious anemia virus
antigenic characteristics of CIAV-7, 956
pathogenesis of CIAV-7, 945
physicochemical characteristics of CIAV-7, 956

infectious bronchitis
nephropathogenic, 847
infectious bronchitis virus
detection using immunohistochemistry, 679
detection using multiplex polymerase chain reaction, 691
diversity of isolates from 1940s, 437
in lung and cloacal bursa, 679
PA/Wolgemuth/98, 847, 938
protection against nephropathogenic, 938
S1 gene of Mass 41 strain, 831
infectious bursal disease
differences in genetic resistance, 581
field trial of multivalent *in ovo* vaccine, 613
molecular characterization in Spain, 859
Spanish field isolates, 859
wild type and virulent vaccine strains, 1030
infectious bursal disease virus
immune response and detection, 803
immunosuppression following vaccination, 810
pathogenesis of variant strain, 169
pathogenicity of serotype 2 OH, 1001
infectious hydropericardium
association with fowl adenovirus serotype 4, 230
infectious laryngotracheitis virus
detection in tissues, 64
detection using multiplex polymerase chain reaction, 691
diagnosis by nested polymerase chain reaction, 64
glycoproteins in *Escherichia coli*, 570
inflammation
effect on ovotransferrin levels, 122
Influenzavirus A
occurrence in live bird markets, 298
ingluvies
Campylobacter in newly hatched chicks, 985
squamous cell carcinoma in game chicken, 1070
interferon-γ genotype and protein levels
and antibody response kinetics, 869
interleukin-2
production in response to coccidiosis, 2
Israel
vaccine strains for fowl poxvirus, 95
iss gene
in *Escherichia coli*, 342, 386

J

Jordan
bacterial etiology of airsacculitis, 605

K

kidneys
nephropathogenic infectious bronchitis in chickens, 847
Korea
increase in Marek's disease, 517

L

Larus atricilla
susceptibility to avian influenza viruses, 877
laughing gulls
susceptibility to avian influenza viruses, 877
layers
contamination of eggs with salmonella, 629
effect of *Mycoplasma gallisepticum* 6/85 vaccine, 423
effect of *Mycoplasma gallisepticum* S6, 593
outbreak of tuberculosis, 1055
serologic detection of *Salmonella enteritidis*, 137
lesser prairie-chicken
Mycoplasma antibodies, 708
limb abnormalities
in meat turkeys, 245
live bird markets
occurrence of avian influenza viruses, 298
lymphocyte proliferation
in response to *Eimeria tenella* infection, 10
increased with *Bifidobacterium thermophilium*, 542
lymphokines
prophylactic use for Newcastle disease, 525

M

major histocompatibility complex
resistance to infectious laryngotracheitis virus, 581
malabsorption syndrome
experimental reproduction in broilers, 87
Marek's disease
characterization of glycoprotein B in turkeys, 322
control with *in ovo* vaccination, 274
field isolates in turkeys, 314
field trial of multivalent *in ovo* vaccine, 613
increase in Korea, 517
increase in virulence, 517
nitric oxide response after infection, 636
vaccination against virulent forms, 517
vaccination with partially attenuated serotype 1, 925
Marek's disease virus
neuropathotyping, 909
Mexico
Ornithobacterium rhinotracheale isolates, 686
moniliformin
effects in broilers and turkeys, 901
Mycobacterium avium
outbreak in layer flock, 1055
Mycobacterium tuberculosis
infection in blue-fronted Amazon parrot, 502
infection in canary, 502
Mycoplasma
prevalence of antibodies in lesser prairie-chicken, 708
Mycoplasma gallisepticum
cloning of surface antigens, 816
detection using multiplex polymerase chain reaction, 691

effect of 6/85 strain live vaccine on layers, 423
use of tylosin in vaccinated layers, 208
Mycoplasma gallisepticum S6
effect of infection on egg production, 593
Mycoplasma gallisepticum ts-11
antibody response after vaccination, 623
Mycoplasma gallisepticum vaccine
detection of ts-11 by pMGA enzyme-linked immunosorbent assay, 405
Mycoplasma synoviae
antibiotic susceptibility in Argentina, 215
detection using multiplex polymerase chain reaction, 691
virulence of isolates, 102
mycosis
aspergillosis in broiler breeder flock, 497
dual infection with reovirus in parrots, 485
myeloid leukosis
caused by recombinant avian leukosis virus, 745
in layers, 745
myxoid leiomyosarcoma
in gizzard of chicken, 256

N

nested polymerase chain reaction
detection of infectious laryngotracheitis virus, 64
neurological response
to Marek's disease virus, 909
neuropathotyping
of Marek's disease virus, 909
Newcastle disease
field trial of multivalent *in ovo* vaccine, 613
increased mortality after vaccination in turkeys, 505
interaction with *Escherichia coli*, 660
prophylactic use of lymphokines, 525
resistance to velogenic form, 525
Newcastle disease virus
detection using multiplex polymerase chain reaction, 691
interaction with avian pneumovirus in turkeys, 412
transmission through eggs, 461
nitric oxide
response after Marek's disease infection, 636

O

oocyst shedding
of *Cryptosporidium* in broilers, 203
Ornithobacterium rhinotracheale
bacterial etiology of airsacculitis, 605
in poultry litter, 1011
isolates in Mexico, 686
serotypes in Turkey, 442
temperature-sensitive mutant, 162, 177
use in a live vaccine, 162
ostriches
characterization of poxvirus, 429
stomach impaction and treatment, 757
ovotransferrin levels
levels in inflammation and diseases of chickens, 122

P

papillomatosis
in peach-fronted conure, 1062
parasitism
ascaridiasis in turkeys, 886
Pasteurella multocida Serotype 1
identification by polymerase chain reaction, 370
pathogenesis
of infectious anemia virus CIAV-7, 945
pathogenicity
infectious bursal disease virus serotype 2 OH, 1001
of H5N1 avian influenza virus, 53
of variant strain of infectious bursal disease virus, 169
pathogens
emerging, unidentified bacterium in chickens and turkeys, 447
peach-fronted conure
papillomatosis and neoplasia, 1062
Pennsylvania
nephropathogenic infectious bronchitis, 847
Phasianus colchicus
septicemia caused by erysipelas, 509
pododermatitis
in turkeys, 1038
polyarthritis
caused by coryneform bacteria, 1051
polymerase chain reaction
detection of avian leukosis virus subgroup J, 971
for *Campylobacter* in hatcheries, 219
for detection of avian respiratory agents, 691
for identification of *Pasteurella multocida* Serotype 1, 370
poult enteritis and mortality syndrome
prevalence of enteropathogenic *Escherichia coli*, 360
risk factors in flocks, 1021
role of reovirus ARV-CU98, 32
poultry
occurrence of *Salmonella*, 17
poultry litter
survival of *Ornithobacterium rhinotracheale*, 1011
poxvirus
genetic and antigenic characterization in ostriches, 429
Pseudomonas aeruginosa
efficacy of disinfectants, 826
mortality in broilers, 1045
Psittacus erithacus
infection with reovirus and herpesvirus or fungal infections, 478

pulmonary hypertension syndrome
induced by cold in broilers, 989

R

racing pigeons
influence of stress, 224
reovirus
in common eiders, 478
infection in psittacine birds, 485
role in poult enteritis and mortality syndrome, 32
triggering role in malabsorption syndrome, 87
reproductive tract
presence of *Campylobacter*, 919
resistance
genetic selection for antibody response, 1007
genetic to Marek's disease infection, 636
of bacteria to disinfectants, 997
respiratory disease
emerging, unidentified bacterium in chickens and turkeys, 447
reverse transcriptase–polymerase chain reaction
for detection of infectious bursal disease virus, 803
for identifying Spanish infectious bursal disease virus, 859
use in detection of avian pneumovirus, 239
Rhea americana
aspergillosis, 754
riboprobes
use in detection of infectious bronchitis virus, 679
ring-necked pheasants
septicemia caused by erysipelas, 509
risk factors
for poult enteritis mortality syndrome, 1021

S

S1 gene
and immune response to fowl poxvirus, 831
in nephropathogenic infectious bronchitis, 847
Salmonella
occurrence in Pacific northwest, 17
occurrence in poultry, 17
Salmonella enteritidis
antibody response in chickens, 25
contamination of eggs, 629
detection by enzyme immunoassay, 137
detection by fluorescence polarization, 137
immune response in crop, 1015
serologic detection in layers, 137
serologic response in chickens, 265
Salmonella gallinarum
virulence of INTA 91 strain, 186
Salmonella serogrouping, 17
Salmonella serotyping, 17
Salmonella typhimurium
serologic response in chickens, 265
semen
presence of *Campylobacter*, 717
septicemia
caused by erysipelas in pheasants, 509
Serinus canaria
Mycobacterium tuberculosis infection, 502
serology
of subgroup J avian leukosis virus, 598
skeletal abnormalities
in broiler chicken, 234
sodium deficiency
stunted growth and increased mortality, 740
Somateria mollissima
isolation and characterization of reovirus, 478
Spain
field isolates of infectious bursal disease, 859
sperm quality
effect of avian leukosis virus subgroup J, 1033
spiking mortality syndrome
associated with hypoglycemia, 735
squamous cell carcinoma
in a game chicken, 1070
Staphylococcus aureus
enterotoxin genes in isolates, 132
stomach impaction
pathology and treatment in ostriches, 757
stress
influence on hematologic and blood chemistry results, 224
Struthio camelus
stomach impaction, 757
stunting
caused by sodium deficiency in feed, 740
surface antigens
of *Mycoplasma gallisepticum*, 816
swine
Campylobacter coli strain infect chicks, 473

T

temperature-sensitive hemagglutinin (Tsh)
occurrence in avian *E. coli*, 713
thoracic teratoma
in white Pekin duck, 493
tibial dyschondroplasia
use of antibiotics, 75
toxicity
effect of moniliformin in feed, 901
tsh gene
occurrence in avian *E. coli*, 713
tuberculosis
in layer flock, 1055
tumors
caused by Marek's disease in turkeys, 314
thoracic teratoma in white Pekin duck, 493
Turkey
Ornithobacterium rhinotracheale serotypes, 442
turkeys
antigenic relationships of coronaviruses, 466
ascaridiasis, 886
avian pneumovirus in young poults, 239

avian pneumovirus vaccine, 555
cellulitis in legs and abdominal regions, 192
commercial operations, 562
E. coli in poult enteritis–mortality syndrome, 360
E. coli strains, 562
effect of moniliformin in feed, 901
enterpathogenic *E. coli,* 360
glycoprotein B gene in Marek's disease, 322
immunosuppression in avian pneumovirus, 153
increased body weight and increased mortality after vaccination, 505
increased mortality after vaccination for Newcastle disease, 505
infectious bursal disease virus serotype 2 OH, 1001
interaction of avian pneumovirus with other diseases, 412
isolation of H1N2 type A influenza, 111
limb abnormalities, 245
Ornithobacterium rhinotracheale vaccine, 162
pathogenic effects of avian pneumovirus, 153
pododermatitis, 1038
reduced efficacy of hemorrhagic enteritis virus vaccine, 353
reovirus isolated in poult enteritis and mortality syndrome, 32
risk factors for poult enteritis mortality syndrome, 1021
Ts-mutant strain of *Ornithobacterium rhinotracheale,* 177
two field isolates of Marek's disease, 314
unidentified gram-negative bacterium causes respiratory disease, 447
virulence of *Mycoplasma synoviae,* 102
turkey poults
pathogenicity of avian pneumovirus, 650
tylosin
use with *Mycoplasma gallisepticum* vaccinated layers, 208
Tympanuchus pallidicinctus
Mycoplasma antibodies, 708
Type A influenza virus
isolation of H1N2 from turkeys, 111
reassortment H1N2 virus, 111

U

United States
antigenic relationships in turkey coronaviruses, 466

V

vaccination
against nephropathogenic infectious bronchitis virus, 938
for Marek's disease with partially attenuated serotype 1, 925
reduced protection to hemorrhagic enteritis virus, 353
vaccination, *in ovo*
immunosuppression following, 810
vaccine
against virulent Marek's disease, 517
control of Marek's disease, 274
detection of antibodies to *Mycoplasma gallisepticum* ts-11, 405
development of anticoccidial, 775
for fowl poxvirus in Israel, 95
for *Mycoplasma gallisepticum* using 6/85 strain, 423
for *Ornithobacterium rhinotracheale* in turkeys, 162, 177
growth and infectivity assays, 95
in ovo delivery of HVT/SB1, 274
use of *Escherichia coli cya crp,* 287
use of tylosin in previously vaccinated layers, 208
vaccine, attenuated
effect of immunomodulator for avian pneumovirus, 555
vaccine, *in ovo*
field trial, 613
vertical transmission
of *Campylobacter* in chickens, 919
virulence
location in *Escherichia coli,* 342
of *Salmonella gallinarum* INTA 91, 186
virulence factors
in *Escherichia coli,* 48
virulence tests
for *Mycoplasma synoviae* isolates in turkeys, 102
virus neutralization test
detection of avian pneumovirus, 700
virus titer
of subgroup J avian leukosis virus in feather pulp, 281
vitamin E
effect on coccidiosis in chickens, 839
